Improve Fruit Firmness and Skin Strength

CellCAL PLUS™

with Calcium Acetate   **Product Code:** SNPK0074

CellCAL PLUS™ has been formulated with the support of industry leaders. CellCAL PLUS™ can improve calcium levels in crops such as;

- Apples
- Citrus
- Table grapes
- Cherries
- Almonds

The three nutrients in CellCAL PLUS™ (calcium, copper & boron) work in a symbiotic relationship assisting in the overall health and strength of the cell walls within the fruit which produces fruit firmness and skin strength.

Both boron and copper are important during rapid fruit growth in cherries to assist in calcium uptake into cell walls and to reduce the occurrence of splitting.

Please also consider using CellCAL PLUS™ in combination with either;
