

# Wet Feet Boost™

Water logging can severely restrict crop growth and may kill plants in some extreme cases. The major and immediate effect of waterlogging is blocking transfer of O<sub>2</sub> between the roots and the soil atmosphere. Root growth and absorption of nutrients is decreased and the availability of nutrients in the soil is also reduced.

The availability of nitrogen, manganese, iron & zinc are directly affected by waterlogging. In alkaline and calcareous soils the availability of both zinc and iron tend to be low, due to adsorption onto clay surfaces.

Waterlogging can also cause denitrification of soil mineral nitrogen. Therefore even after waterlogging has ceased there may be less nitrogen available for the crop.

In this case much of the yield loss caused by waterlogging can be recovered by supplying nitrogen directly to the leave as a foliar spray.

Zinc and Iron foliar application to waterlogged crops can assist in crop recovery.

## Wet Feet Boost™ is a blend formulated to assist in the recovery of water logged crops

**Wet Feet Boost™** contains a blend of 6 nutrients & 5 biostimulants in highly available forms. This product is designed not only to give the crop the nutrients it needs but also the natural bio-stimulants of **QuadSHOT®** to ensure the roots and leaves are activated to take up these nutrients.

### 20 litres per hectare of Wet Feet Boost™ will give your crop;

- 3.5 kg of nitrogen
- 200g of iron
- 50g of copper
- 1 kg of sulphur
- 100g of zinc
- + QuadSHOT®

This product is compatible with a wide range of SLTEC® nitrogen products if your crop requires it.

## Guaranteed Analysis

Nitrogen (N)	17.4%
N as ammonium	3.9%
N as urea	13.5%
Phosphorus (P)	0.1%
Potassium (K)	0.1%
Sulphur (S)	5.0%
Zinc (Zn)	0.5%
Copper (Cu)	0.05%
Iron (Fe)	1.0%
Fulvic Acid	0.01%
Humic Acid	0.3%
Fish Emulsion	0.4%
Kelp	0.4%
Molasses	0.4%
Specific Gravity	1.219 kg/L
pH	3.5 - 5.5

## Typical Application Rates

### Foliar Aerial

20 L/ha Wet Feet Boost  
30 L/ha water

### Foliar Boom spray:

20 - 30 L/ha Wet Feet Boost  
50 - 70 L/ha water

## APPLICATION RATES

### Typical Foliar Application Rates:

20 - 30L/ha with 30 - 70 L/ha water

## GUIDING PRINCIPLES

Before using Wet Feet Boost, seek appropriate agronomic advice via SLTEC's Balanced Agronomy services and dealer agronomist network.

Soil analysis combined with plant tissue (or SAP) analysis are recommended to assist in making an informed decision about which product best meets your crop, soil and general environmental conditions.

Fertilizer can burn and/or damage crops and pasture. Because climatic and soil conditions, application methods, irrigation and management practices are beyond the control of Sustainable Liquid Technology Pty Ltd and cannot be foreseen, Sustainable Liquid Technology Pty Ltd accepts no responsibility whatsoever for any commercial damage, loss or other result following the use of this product, whether used in accordance with directions or not, subject to any overriding statutory provision and provided that such liability under those provisions shall be limited to the replacement of the goods as supplied or the rendering again of the services that are provided. The buyer accepts and uses this product subject to these conditions.

## PRODUCT INFORMATION

### PRODUCT STORAGE

Keep material in a cool, dry, well ventilated area, away from direct sunlight, between 10 to 30°C. Store product in suitable containers made from material such as stainless steel, high density polyethylene and fibreglass. Fluid fertilizers can be corrosive to material such as brass, copper, zinc or alloys of these metals. Clean equipment after use thoroughly with clean fresh water. Use SLTEC's Fert Tank Cleaner to rinse fertilizer tanks and transfer systems. Wet Feet Boost is recommended for use within 6 months from dispatch date.

## WARNING & SAFETY INFORMATION

**WARNING:** Do not swallow. The spray from this product may act as an irritant. Avoid inhalation and contact with the eyes and skin. Wear rubber gloves and appropriate eye protection when handling the product. See the product MSDS for more information, [www.sltec.com.au](http://www.sltec.com.au)

**WARNING:** This fertilizer contains biuret. Repeated foliar sprays may cause damage to citrus.

## IMPURITIES

Biuret

16.8 g biuret/kg N
